EDUCATION

- **Deakin University** Melbourne, Australia
Bachelor of Computer Science Mar. 2021 – Feb. 2024

EXPERIENCE

- **Foody KPS Supermarket** Sihanoukville, Cambodia
System Developer Mar 2024 - Present
 - Efficiently implemented a catalogue system utilizing **VBA** automation to match **thousands** of product images with QR code records in excel
 - Developed a **Python** script to extract restocking requirements from Excel records and efficiently manage daily communication with suppliers
 - Designed a **monthly** reporting mechanism to generate insights on average sales, performance evaluation, and incentives
- **SisterWorks** Melbourne, Australia
IT/Developer (Internship) Apr 2025 - Jun 2025
 - Developed a **Python**-based automation auditing tool to streamline attendance tracking and generate categorized reports
 - Created Python scripts to clean, manage and categorize large data set in preparation for migration, enabling transfer of **60%** of old records from **Google Sheets** to **Salesforce**
 - Designed and implemented **Salesforce automation flows** to support onboarding and offboarding processes for volunteers and interns, enhancing operation efficiency and accuracy
 - Built and maintained **6 Slack channel** management using workflows to enhance internal communication and task tracking
- **Aubot** Melbourne, Australia
Software Developer (Internship) Nov 2023 - Mar 2024
 - Successfully contributed to improving the student portal by efficiently managing the modelling phases and improve usability
 - Optimized curriculum structure to ensure steady progression in complexity and strategically arrange **30** lesson topics for learning efficacy
 - Efficiently tested **hundreds of APIs** by validating the core API class to ensure consistent and reliable functionality across the system

PROJECTS

-

TECHNICAL SKILLS

- **Languages:** Python, C#, C++, Javascript, HTML, CSS, SQL
- **Framework:** React, .NET Core
- **DevOps and API Tools:** Git, Postman
- **Other:** Agile, Debugging, Excel VBA
